## PROFESSIONAL EXPERIENCE

### A) ACADEMIC ACTIVITIES

| | |
|---|---|
| • Dates (from – to) | **From 02/08/2022 to present** |
| • Name and address of employer | Department of Health Sciences, University of Eastern Piedmont. |
| • Type of company or sector | |
| • Type of employment | Associate Professor of Forensic Medicine (Sector MED/43), with eligibility for full professorship from the third term f 2023. |
| • Main duties and responsabilities | |

| | |
|---|---|
| • Dates (from – to) | **From 01/07/2018 to 1/08/2022** |
| • Name and address of employer | Department of Health Sciences, University of Eastern Piedmont. |
| • Type of company or sector | |
| • Type of employment | University Researcher (sector MED/43). |
| • Main duties and responsabilities | In December 2018, the Forensic Medicine Laboratory was established, including the Forensic Genetics Section, which conducts research in the fields of forensic medicine and forensic genetics, as well as carrying out work for third parties (forensic genetic investigations for the judicial authorities). |

| | |
|---|---|
| • Dates (from – to) | **From 01/11/2012 to 30/06/2018** |
| • Name and address of employer | Criminalistics Sciences Laboratory, now the 'Carlo Torre' Criminalistics Sciences Laboratory (which included the Electron Microscopy and Forensic Genetics sections). |
| • Type of company or sector | |

| | |
|---|---|
| • Type of employment | Laboratory Manager. |
| • Main duties and responsabilities | |
| • Dates (from – to) | **From 01/07/2012 to 30/06/2018** |
| • Name and address of employer | Laboratory for the Study of the Cadaver. |
| • Type of company or sector | |
| • Type of employment | Laboratory Manager. |
| • Main duties and responsabilities | Similar to centres established for this purpose in other countries, the laboratory's activities include receiving cadavers donated for scientific study, organising study sessions for postgraduate students in surgical disciplines, and promoting information on cadaver donation through conferences, meetings and the media (newspapers, the internet, etc.). The Laboratory's activities were highlighted in the opinion of the National Bioethics Committee on the "*donation of the post-mortem body for study and research purposes*", approved on 19 April 2013 and published on 20 May 2013. |
| • Dates (from – to) | **From 01/10/2001 to 30/06/2018** |
| • Name and address of employer | University of Turin. |
| • Type of company or sector | |
| • Type of employment | Assistant Professor – Adjunt Professor of Forensic Medicine. |
| • Main duties and responsabilities | Researcher at the Faculty of Medicine and Surgery since 1 October 2001, appointed to a permanent post on 15 October 2004, attached to the Department of Anatomy, Pharmacology and Legal Medicine and, since 1 January 2013, to the Department of Public Health and Paediatric Sciences.<br>From 1 October 2008 to 31 December 2012, she was affiliated with the Second Faculty of Medicine and Surgery "San Luigi Gonzaga" of the same University; from 1 January 2013 to 30 June 2018, she was affiliated with the School of Medicine at the University of Turin. |
| • Dates (from – to) | **From 1995 to 30/09/2001** |
| • Name and address of employer | Department of Anatomy, Pharmacology and Legal Medicine, University of Turin. |
| • Type of company or sector | |
| • Type of employment | Laboratory Manager. |
| • Main duties and responsabilities | Organisation of the Forensic Genetics Section of the newly established Laboratory of Criminalistics Sciences at the premises at Corso Massimo d'Azeglio no. 52, under the direction of Prof. Carlo Torre. In 2004, she oversaw the relocation of this section to its current premises at 22 Corso Galileo Galilei, expanding the facilities and acquiring new equipment, and served as its head from 2006 until 30 June 2018. In 2009, she initiated the procedures for ISO-9001:2008 certification, which was obtained in the same year and renewed in subsequent years. The forensic genetics laboratory was responsible for investigations into the identification of traces, unidentified bodies, paternity/kinship, both for the judicial authorities and in extrajudicial proceedings, as well as for the purposes of family reunification in accordance with Directive 2003/86/EC on the right to family reunification (Legislative Decree No. 5 of 8 January 2007). |
| • Dates (from – to) | **1992-1994** |
| • Name and address of employer | Department of Clinical and Biological Sciences at the University of Turin, based at the San Luigi Gonzaga Hospital in Orbassano. |
| • Type of company or sector | |
| • Type of employment | |
| • Main duties and responsabilities | Study of DNA polymorphisms in the forensic field, under the supervision of Professors Mario De Marchi and Carlo Torre. Organisation of the genetics and forensic genetics section within the laboratory. |

## B) CLINICAL WORK

| | |
|---|---|
| • Dates (from – to) | **From 01/10/2025 to present** |
| • Name and address of employer | University Hospital of Alessandria. |
| • Type of company or sector | |

| • Name and address of employer | Novara Inter-Company Ethics Committee. |
| • Type of company or sector | |
| • Type of employment | Member (genetics expert). |
| • Main duties and responsabilities | |

## EDUCATION AND TRAINING

| | |
|---|---|
| • Dates (from – to) | **Academic Year 2016/17** |
| • Name and type of educational or training institution | University of Milan. |
| • Main subjects / professional skills covered | Advanced course in ‘Diagnosis of Child Abuse and Neglect’, coordinated by Prof. Cristina Cattaneo. |
| • Qualification obtained | |
| • National classification level (if applicable) | |

| | |
|---|---|
| • Dates (from – to) | **From the 1994/95 academic year to 10 November 1998** |
| • Name and type of educational or training institution | Postgraduate School in Legal Medicine and Insurance (specialising in Legal Medicine and Insurance) at the University of Turin. |
| • Main subjects / professional skills covered | Discussion of an experimental thesis entitled “The study of DNA polymorphisms: four years of work by the Laboratory of Criminalistics Sciences”. |
| • Qualification obtained | Legal Medicine and Insurance Specialist |
| • National classification level (if | 70/70 with distinction, published, honourable mention. |

applicable)

| | |
|---|---|
| • Dates (from – to) | **From the 1988/89 academic year to 25 October 1994** |
| • Name and type of educational or training institution | Faculty of Medicine and Surgery, University of Turin. |
| • Main subjects / professional skills covered | Defence of an experimental thesis entitled “Applications of DNA polymorphisms to the identification of biological traces in forensic medicine: extraction and analysis techniques”. |
| • Qualification obtained | Doctor of Medicine and Surgery. |
| • National classification level (if applicable) | 110/110 with honours, worthy of publication. |

| | |
|---|---|
| • Dates (from – to) | **Academic Year 1983–1984 – Academic Year 1987–1988** |
| • Name and type of educational or training institution | “Charles Darwin” Science High School, Rivoli (TO) |
| • Main subjects / professional skills covered | |
| • Qualification obtained | Science Baccalaureate. |
| • National classification level (if applicable) | |

**ACTIVITIES IN SUPPORT OF THE PREVENTION AND HEALTH MANAGEMENT OF GENDER-BASED VIOLENCE AND DISCRIMINATION**

| | |
|---|---|
| • Dates (from – to) | **From April 2025 to present** |
| • Name and address of employer | University of Eastern Piedmont. |
| • Type of company or sector | |
| • Type of employment | |
| • Main duties and responsabilities | Contact person for the Anti-Discrimination Network of the Province of Vercelli in the field of gender medicine. |

| | |
|---|---|
| • Dates (from – to) | **From November 2024 to present** |
| • Name and address of employer | University of Eastern Piedmont. |
| • Type of company or sector | |
| • Type of employment | |
| • Main duties and responsabilities | Regional Contact for Gender Medicine. |

| | |
|---|---|
| • Dates (from – to) | **From July 2024 to present** |
| • Name and address of employer | University of Eastern Piedmont. |
| • Type of company or sector | |
| • Type of employment | |
| • Main duties and responsabilities | University representative on the working group set up at the Prefecture of Novara to identify unidentified bodies. |

| | |
|---|---|
| • Dates (from – to) | **From October 2025 to present** |
| • Name and address of employer | Alessandria University Hospital. |
| • Type of company or sector | |
| • Type of employment | |
| • Main duties and responsabilities | Participation in the Hospital’s meetings and working groups on the prevention of gender-based violence and support for victims of violence and their children, as well as in the training of healthcare staff on gender-based violence. |

| | |
|---|---|
| • Dates (from – to) | **From July 2018 to September 2025** |

- delivered a teaching seminar entitled "Elements *of Law and Professional Liability*" as part of the Level I Master's programme in "*Operating Theatre Nursing*";

- was appointed to deliver the module "*Medico-legal and ethical aspects in paediatric emergency care*" (8 hours) as part of the Level I Master's programme in "*Paediatric Nursing and Neonatology*".

**• Dates (from – to)** **2003 - 2012**

**• Name and address of employer** University of Turin.

**• Type of company or sector**

**• Type of employment** Teaching responsibilities.

**• Main duties and responsabilities** **University Diploma in Nursing and Bachelor's Degree in Nursing – Cuneo campus.**
**Three-year Degree Course in Biomedical Laboratory Techniques, Cuneo campus.**

**• Dates (from – to)** **From 1995 to 30/06/2018**

**• Name and address of employer** University of Turin.

**• Type of company or sector**

**• Type of employment** Lecturer.

**• Main duties and responsabilities**

**Degree Courses**

Degree Courses in Medicine and Surgery.

Master's Degree Programme in Health Biology (from the 2009–2010 academic year: Master's Degree Programme in Cellular and Molecular Biology; now the Master's in Cellular and Molecular Biology).

University Diploma in Nursing and Bachelor's Degree in Nursing.

Bachelor's Degree Programme in Environmental and Workplace Prevention Techniques (Inter-faculty Programme).

Bachelor's Degree in Paediatric Nursing.

Bachelor's Degree in Midwifery.

Bachelor's Degree in Business and Institutional Law.

**Postgraduate Schools**

Lecturer at various postgraduate schools in the medical field.

**Advanced Courses and Master's Programmes**

During the academic years 1995-1996 and 1996-1997, lecturer in "*Molecular biology techniques applied to forensic medicine*" on the Advanced Course in "*Molecular Diagnostics in Medicine*" at the Faculty of Medicine and Surgery, University of Turin, directed by Prof. Umberto Mazza.

From the 1997-1998 to 2002-2003 academic years, lecturer in "*Forensic Haematology and Genetics*" on the "*Advanced Course in Medico-legal Criminalistics*" at the Faculty of Medicine and Surgery, University of Turin, directed by Prof. Carlo Torre.

From the 2017-2018 academic year to the 2019-2020 academic year, lecturer in "*Legal Medicine*" on the Level II Master's programme in "Andrology – Andrea Tamagnone" at the University of Turin.

**Other courses**

Lecturer on the online course "*Introduction to Gender Studies*" organised by Cirsde at the University of Turin, module "*Body, Norms and Sexual Behaviour*", lecture "*Disorders of Sex Development (DSS/DSD): issues of medico-legal interest*".

In the 2013–2014 academic year, lecturer on the course "*Legal Medicine, Professional Ethics and Administration*" at the Italian School of Osteopathy in Turin.

For the 2018-2019 academic year, he was appointed to teach "*Legal Medicine*" as part of the integrated module "*Legal and Economic Sciences*" within the Master's Degree Programme in Rehabilitation Sciences for Healthcare Professions at the Catholic University of the Sacred Heart – Moncrivello campus (VC).

## UNIVERSITY COMMITTEES

**• Dates (from – to)** **From 2018 to 2022**

**• Name and address of employer** University of Eastern Piedmont.

**• Type of company or sector**

**• Type of employment**

**• Main duties and responsabilities**

From December 2018 to January 2022, she was Head of Quality for the Department of Education (RQDF) within the Department of Health Sciences.

**SCIENTIFIC ACTIVITIES**

| | |
|---|---|
| **• Dates (from – to)** | **From 2020 to present** |
| **• Name and address of employer** | International and interdisciplinary research project "Mass Grave Project" coordinated by Dr Hayley L. Mickleburgh, Assistant Professor at the University of Amsterdam. |
| **• Type of company or sector** | |
| **• Type of employment** | Research activities. |
| **• Main duties and responsabilities** | In connection with the aforementioned project, she participated in excavation work, the exhumation of donors and the collection of biological material at the "Forensic Anthropology Research Facility" of the "Forensic Anthropology Centre, University of Texas" (Texas, USA) from 3 to 19 November 2022. |

| | |
|---|---|
| **• Dates (from – to)** | **Academic Year 2024-2025** |
| **• Name and address of employer** | Arcadia University (Glenside - USA). |
| **• Type of company or sector** | |
| **• Type of employment** | "Co-Supervisor" for undergraduate thesis. |
| **• Main duties and responsabilities** | Jean Poulson, "*Exploring the persistence and transfer of DNA under fingernails in mock physical assaults*", Master of Science in Forensic science, Arcadia University 2024/2025, co-supervised by prof. Fabio Oldoni, dr. Anna Franzoni and dr. Daniele Podini. |
| **• Dates (from – to)** | **Academic Year 2022-2023** |
| **• Name and address of employer** | Uppsala University (Svezia). |
| **• Type of company or sector** | |
| **• Type of employment** | "Co-Supervisor" for undergraduate thesis. |
| **• Main duties and responsabilities** | Emma Eriksson, "*New molecular and microbiological approaches to solving forensic casework*", Master's program in Forensic science, University of Uppsala, AY 2022/2023, Co-Supervisor with dr. Hayley Mickleburgh and dr. Noemi Procopio. |
| **• Dates (from – to)** | **From the 2021-2022 Academic Year to 2022-2023 Academic Year** |
| **• Name and address of employer** | University of Amsterdam (Netherlands). |
| **• Type of company or sector** | |
| **• Type of employment** | "Co-Supervisor" for undergraduate thesis. |
| **• Main duties and responsabilities** | 1. Marie-Louise Trinder, "*A review of the forensic applications of human microbiome research with focus on mass graves/mass disasters*", M.Sc. in Forensic Science, University of Amsterdam, AY 2021/2022, Co-Supervisor with dr. Hayley Mickleburgh and dr. Noemi Procopio;<br>2. Fieke Bron, "*The use of STR and SNP methods for phenotype prediction*", M.Sc. in Forensic Science, University of Amsterdam, AY 2021/2022, Co-Supervisor with dr. Hayley Mickleburgh and dr. Noemi Procopio;<br>3. Moya McCarthy-Allen, "*Identification of cadavers in single and mass graves: different strategies in forensic genetics*", M.Sc. in Forensic Science, University of Amsterdam, AY 2022/2023, co-supervised by dr. Hayley Mickleburgh and dr. Noemi Procopio. |
| **• Dates (from – to)** | **From the 2021-2022 Academic Year to 2022-2023 Academic Year** |
| **• Name and address of employer** | Murdoch University (Australia). |
| **• Type of company or sector** | |
| **• Type of employment** | "Co-Supervisor" for undergraduate thesis. |
| **• Main duties and responsabilities** | 1. Eleanor Newton, "*Persistence and contamination of the human microbiome from clothes: T-shirt, socks and underwear*", M.Sc. in Forensic Sciences (Professional Practice), University of Murdoch, AY 2022/2023, Co-Supervisor with dr. Paola Magni e dr. Noemi Procopio;<br>2. Frazer McKell, "*Persistence and contamination of the human microbiome from clothes: T-shirt, socks and underwear*", M.Sc. in Forensic Sciences (Professional Practice), University of Murdoch, AY 2022/2023, Co-Supervisor with dr. Paola Magni e dr. Noemi Procopio. |
| **• Dates (from – to)** | **From 2025-2026 to present** |
| **• Name and address of employer** | University of Lancashire (UK). |
| **• Type of company or sector** | |
| **• Type of employment** | "Co-Supervisor" in the PhD Program. |
| **• Main duties and responsabilities** | Co-supervisor on a PhD programme at the School of Law and Policing, supervised by prof.ssa Noemi Procopio: "Forens-OMICS" on Human Biological Fluids for Time Since Deposition Estimation in Forensic Contexts (PhD student Domiziana Buffoni). |

| | |
|---|---|
| **• Dates (from – to)** | **From the 2020-2021 Academic Year to 2024-2025 Academic Year** |
| **• Name and address of employer** | Northumbria University (UK). |
| **• Type of company or sector** | |
| **• Type of employment** | "Co-Supervisor" in the PhD Program. |
| **• Main duties and responsabilities** | Co-supervisor of the "self-funded" PhD proposed by dr. Noemi Procopio (Supervisor) "*The forensic microbiome: investigation of the human microbiome for time since death estimation and human identification*" (PhD student Nengi Ogbanga). |
| **• Dates (from – to)** | **From the 2020-2021 Academic Year to 2023-2024 Academic Year** |
| **• Name and address of employer** | Northumbria University (Newcastle upon Tyne, UK). |
| **• Type of company or sector** | |
| **• Type of employment** | Outgoing and incoming Visiting Fellow/Professor. |
| **• Main duties and responsabilities** | From the 2020–2021 Academic Year until 2023–2024, she is a Visiting Fellow at Northumbria University (Newcastle upon Tyne, UK). From 6 to 15 October 2021, she was a guest of Dr. Noemi Procopio and delivered two seminars entitled "*Femicide in Turin: epidemiological, criminological and criminalistic aspects*" for academic colleagues (8 October 2021) and for students (14 October 2021).<br>Since the 2020–2021 Academic Year, she has been a Visiting Professor at Dr. Noemi Procopio's department. Dr. Procopio is a Senior Research Fellow in Forensic Science (UKRI Future Leader Fellow) at the Department of Applied Sciences, Faculty of Health and Life Sciences, Northumbria University (Newcastle upon Tyne, UK). |
| **• Dates (from – to)** | **Since 2018** |
| **• Name and address of employer** | University of Eastern Piedmont. |
| **• Type of company or sector** | |
| **• Type of employment** | |
| **• Main duties and responsabilities** | - Scientific collaboration agreement for the conduct of research between the Sexual Violence Support Centre at the Sant'Anna Hospital in Turin (scientific director Dr. Paola Castagna) and the Department of Health Sciences (scientific director Dr. Sarah Gino) in the context of research into sexual violence and abuse during pregnancy and issues relating to migrant women (2018–2023).<br>- Scientific collaboration agreement for the conduct of scientific research between the National Research Council (CNR) – Institute for Sustainable Plant Protection (scientific director Dr. Stefano Ghignone), the University of Eastern Piedmont – Department of Health Sciences (scientific director Dr. Sarah Gino) and the University of Turin - Department of Life Sciences and Systems Biology (scientific coordinator: Dr. Samuele Voyron) in the field of forensic microbiology for the purposes of personal identification and determining the cause and time of death (2021-2022).<br>- Scientific collaboration agreement for the conduct of scientific research between Eurofins Genoma (scientific lead Dr. Luca Salvaderi) and the University of Eastern Piedmont - Department of Health Sciences (Scientific Director Dr. Sarah Gino) in the field of the study of new polymorphic markers for the purposes of personal identification, determining geographical origin and phenotype (eye, hair and skin colour) to be applied to forensic cases (three-year duration 2022-2024).<br>- A scientific collaboration agreement for the conduct of scientific research between the Piedmont Consortium for the Prevention and Suppression of Doping and Other Illicit Drug Use 'Alessandro Bertinaria Regional Anti-Doping Centre' (Scientific Director Dr. Paolo Garofano) and the University of Eastern Piedmont - Department of Health Sciences (scientific director Dr. Sarah Gino) with a view to conducting experimental studies on the degradation of DNA from extracts stored under sub-optimal conditions (two-year duration: November 2022-November 2024). |

| | |
|---|---|
| **• Dates (from – to)** | **From 2004 to June 2018** |
| **• Name and address of employer** | University of Turin. |
| **• Type of company or sector** | |
| **• Type of employment** | |
| **• Main duties and responsabilities** | - 2004: co-applicant for a 60% research grant project (lead applicant Prof. Gianluigi Panattoni) entitled: "*Analysis of maternal and foetal DNA microsatellites in the human placenta, in relation to observation times, storage methods and different laboratory techniques*".<br>- 2005: Principal investigator of a 60% funded research project (co-principal investigator: Prof. Carlo Torre) entitled "*Study of Y-chromosome STR polymorphisms in a sample of the Piedmontese population: determination of haplotype frequencies for the statistical evaluation of forensic cases*".<br>- 2006: Principal investigator of a 60% publicly funded research project (co-principal investigator Prof. Carlo Torre) entitled "*Study of mitochondrial DNA mutations in hair samples from HIV-positive patients treated with nucleoside reverse transcriptase inhibitors*".<br>- 2006: Principal investigator (co-investigator Dr. Silvia Paola Donadio – SVS S. Anna Hospital, Turin) of a project under the "Piedmont Region Call for Proposals for the Funding of Targeted Health Research Projects – Year 2006" entitled "*Methods for the detection of seminal fluid in victims of sexual assault: a comparative study for the genetic identification of the perpetrator*".<br>- 2007: Principal investigator (co-investigator Prof. Carlo Torre) of a project funded 60% by the region, entitled "*Analysis of Y-chromosome haplogroups using the 'minisequencing' method: a study of sensitivity and specificity in mixed biological samples*".<br>- 2008: Principal investigator (co-investigator Prof. Carlo Torre) of a project funded 60% by the Region, entitled "*Genetic variability of the Y chromosome in the Piedmontese population*".<br>- 2008: participated in a project under the "Piedmont Region Call for Proposals for the Funding of Targeted Health Research Projects – Year 2008" (principal investigator Dr. Silvia Paola Donadio – SVS, S. Anna Hospital, Turin) entitled "*Review of protocols concerning medical intervention in cases of sexual abuse of women and minors. Proposal for guidelines for integrated management*".<br>- 2009: for the 2009–2010 academic year, applied for and obtained from Cirsde a contract for Dr. Serena Inturri to carry out tutoring activities in gender studies.<br>- 2012: Principal investigator of a joint project (with Prof. Carlo Torre), 60% funded by external sources, entitled "*Identification of biological fluids and tissues through the study of mRNA: applications in forensic genetics*".<br>- 2013: scientific coordinator of the project "*Typing of human DNA from biological traces subjected to decontamination*", with funding from "scientific research funded by the University of Turin" (60% funding).<br>- 2014: scientific director of the project "*Extrajudicial investigations of consanguinity: analysis of cases brought to the attention of the Forensic Genetics Laboratory from 2010 to 2015 and assessment of the ethical and legal aspects associated with them*", with funding from "scientific research funded by the University of Turin" (ex-60% funding).<br>- 2015: Scientific lead of the project "*Murder or femicide? Analysis of cases from the Turin sector from 1970 to 2015*" with funding from "scientific research funded by the University of Turin" (60% funding).<br>- 2016: Member of the research team for the project "*Assessment of the impact of maxillofacial surgery on personal identification in the forensic field*", funded by "scientific research funded by the University of Turin" (60% funding, principal investigator Dr. Laura Verzé).<br>- Promoter of the cooperation agreement signed between the Department of Public Health and Paediatric Sciences - University of Turin and the Department of Chemical and Biological Sciences - University of Huddersfield (United Kingdom) with the aim of exchanging knowledge and expertise in the fields of forensics, entomology, biology and analytical sciences (December 2013 – December 2018).<br>- Scientific collaboration agreement between the 'Carlo Torre' Laboratory of Criminalistics Sciences of the Department of Public Health and Paediatric Sciences - University of Turin, headed by Dr. Sarah Gino, and the Sexual Violence Support Centre at the Sant'Anna Hospital in Turin – "Città della Salute e della Scienza" University Hospital, Turin, headed by Dr. Paola Castagna, as part of research activities in the field of sexual violence and abuse during pregnancy and issues relating to migrant women (2016–2019).<br>- Scientific collaboration agreement between the 'Carlo Torre' Laboratory of Criminalistics Sciences of the Department of Public Health and Paediatric Sciences - University of Turin, led by Dr. Sarah Gino, and the Interdepartmental Master's Programme in Criminological and Forensic Psychology, Department of Psychology and Department of Law, University of Turin, chaired by |

Prof. Georgia Zara, for a research project on "Intimate Partner Violence" (IPV). This project aimed to explore issues related to IPV by analysing them from both a medico-legal and a psycho-criminological perspective (2016–2019), a project submitted to and approved by the Bioethics Committee of the University of Turin on 21 May 2018.

- Coordinator, alongside Prof. Luciana Caenazzo of the University of Padua, of the collaborative project "Sexual Violence" by the Italian Group of Forensic Geneticists (GeFI), submitted to and approved by the Bioethics Committee of the University of Turin on 21 May 2018.

- Contact person for the sponsoring body (Department of Public Health and Paediatric Sciences - University of Turin) of the research project "*Assessment of the accuracy of predicting the time of death from cadaveric blood through analysis of circadian gene expression*", approved by the Inter-institutional Ethics Committee of the AOU Città della Salute e della Scienza in Turin - AO Ordine Mauriziano, Turin - ASL City of Turin (notification dated 7 August 2017).

- Eligible for funding for basic research activities, as referred to in Article 1, paragraphs 295 et seq. of Law No. 232 of 11 December 2016.

**Funded Research Projects**

In 2019, she was among the proposers (Renò-Migliario-Gino) of the FAR2017 Project – Department of Health Sciences: "*Effect of topical probiotics on wound healing in the oral cavity: an in vitro study on a 3D model of oral mucosa and in vivo*", funded with €30,000.

In 2021, she participated as an "External Partner" in the interdisciplinary project "*PAUSE (Prevention of Assault Under Scientific Evidence) to combat interpersonal violence*", proposed by the Department of Computer Science at the University of Turin, a project funded with €50,000 from the call for proposals for the funding of Public Engagement projects promoted by the University of Turin.

In 2023, she participated in the PRIN 2022 PNRR Call for Proposals: RESEARCH PROJECTS OF SIGNIFICANT NATIONAL INTEREST with the project "*Gender segregation in specialised medical training*" (research group: Carbone D. [Principal Investigator], Dagnes J., Scacchi L., Gino S., Ruspa M., Mognetti B., Monaci M.G.), funded with €263,574.

In 2023, she participated in the UPO 2022 RESEARCH CALL with the project "*Tackling Gender Segregation in Medical Specialisation Paths: choices, careers, and opportunity structure*" (research group: Angelucci A. [Principal Investigator], Carbone D., Zaltron F., Gino S.), funded with €44,500.

*In 2025, she participated in the "Pump Priming Collaboration between UK and EU Partners 2025" call for proposals by the British Academy with the project "*Advancing forensic microbiome analyses for enhanced cross-border security*" as a co-applicant (Primary applicant Prof. Noemi Procopio, co-applicant Dr. Michele Di Nunzio, co-applicant Prof. Antonio Oliva), funded with £9,950.*

**Other Research Projects**

During the same period, she submitted the following research projects to the Novara Inter-institutional Ethics Committee and received a favourable opinion.

- "*Sexual violence and abuse against women: reception and care within the healthcare system. Retrospective multicentre study*", with the aim of assessing the prevalence of the phenomenon in Eastern Piedmont through the analysis of cases of abuse and sexual violence managed by the Ss. Trinità Hospital in Borgomanero, the Maggiore della Carità University Hospital in Novara, the ASL BI (Ospedale degli Infermi in Biella) and the ASL VCO (Verbania Hospital). A secondary objective of the study is to assess whether training for healthcare staff and the introduction of *ad hoc* procedures for managing cases of violence can provide healthcare staff with useful tools for recognising and managing reported or suspected cases of abuse.

- "*Histological and biomolecular analyses of teeth for forensic purposes*", a study aimed at investigating dental cementum, exploring the underlying causes of the phenomenon of Tooth Cementum Annulation (TCA) and its applicability in forensic investigations, seeking to assess whether it is possible, by measuring the thickness of the annuli and the biomolecular and morphological characteristics of the matrix, to refine the seasonal estimate and provide a further tool for determining the post-mortem interval for skeletal remains. Furthermore, conducting biomolecular investigations on the same matrix may provide additional information not only for estimating the post-mortem interval but also in relation to estimating the individual's age. The study is being conducted in collaboration with Dr Noemi Procopio of Northumbria University, UK.

- "*ForensOmics and cadavers*", a study aimed at evaluating the application of Omics to cadaveric tissues with a view to developing one or more mathematical models for predicting age and post-mortem interval (PMI) for forensic purposes. In particular, analyses of the

microbiome of the subjects involved in the study, as well as transcriptome and genome analyses through the study of Single Nucleotide Polymorphisms (SNPs), will be useful for obtaining additional information regarding the identity of unidentified individuals and for gathering information for investigative purposes. Metabolomics, proteomics, genomics and transcriptomics may assist the forensic pathologist in the differential diagnosis of causes of death. The study is being conducted in collaboration with Dr. Noemi Procopio – Northumbria University, UK.

- "*Omics methods and prediction of biological age*", a study aimed at assessing whether the analysis of human DNA methylation at specific sites can be used as a multi-tissue predictive model of an individual's age. Furthermore, the study has as a secondary objective the evaluation of the possibility of using specific ELISA assays for forensic purposes to analyse the concentration of proteins present in various tissues (e.g. blood, saliva, etc.), the concentration of which varies with age, in order to increase the accuracy of age estimation using protein markers present in various biological fluids and DNA methylation analysis. The study is being conducted in collaboration with Dr Noemi Procopio – Northumbria University, UK.

- "*The microbiome: forensic applications and clinical implications*", a study aimed at analysing intra- and inter-individual variability in the skin and oral microbiome in order to shed light on the actual applicability of forensic microbiology for the characterisation of biological traces and for personal identification, particularly in situations where human DNA is present in quantities and of a quality that do not permit the typing of genetic profiles useful for comparison with the polymorphic markers commonly used (Short Tandem Repeats and Single Nucleotide Polymorphisms). The study is being conducted in parallel in Italy and the UK to assess whether there is greater variability among individuals living in different environments and with different lifestyles compared to that observed among individuals living in the same area and with similar lifestyles, in order to determine whether the study of the microbiome can be useful for both investigative and identification purposes. The study is being conducted in collaboration with Dr. Noemi Procopio – Northumbria University, UK.

## THIRD MISSION

### CONTINUING EDUCATION AND OPEN TEACHING

- School for the technical and ethical training of criminal defence lawyers, 'Vittorio Chiusano' Criminal Bar Association of Western Piedmont and the Aosta Valley, Turin, 17 October 2003: "*Scientific evidence – forensic medicine – DNA*" (with Dr.. Carlo Robino).

- Court clerks – Court of Turin, 28 January 2004: "*Site inspection techniques and genetic investigations*" (speakers: Dr. Marco Basile, Dr. Sarah Gino, Dr. Roberto Maria Sparagna).

- Course "*Personal identification: forensic and forensic science issues*" organised by the State Police Cadet School and Local Health Authority 20 of Alessandria, Alessandria, 26–27 November 2004: "*Applications of Forensic Genetics for identification purposes*".

- Court clerks – Court of Turin, 15 April 2005 (with Dr. Carlo Robino).

- "*7th Alessandria Conference on Forensic Medicine: Issues in personal identification and forensic pathology: from Gasti to contemporary 'mass disasters'*", Alessandria, State Police Cadet School, 24 March 2006: "*DNA Methods*".

- Piedmont Region, A.O.U. S. Giovanni Battista Turin - O.I.R.M. S. Anna Hospital Trust, Turin, 20–21 February 2008, 17 and 31 March 2008, 7 and 14 April 2008, "*Training Course for healthcare workers in A&E and Emergency Departments of regional hospitals on domestic and sexual violence against women*": "*Biological forensic medical consultancy*" (with Dr. Carlo Robino).

- Aosta Valley Region, 19–20 November 2009 and 26–27 November 2009, "*Training Course on Sexual Violence*": "*Forensic aspects. Ex officio prosecution and reporting offences*".

- "*Criminal and Technological*", a series of training and in-depth study sessions, spring-autumn 2012, organised by the Milan Association of Criminological and Forensic Studies, 16 November 2012, Spazio Chiossetto, Milan: "*Evidence and biology: is DNA the gold standard of evidence?*" (with Dr. Andrea Piccinini and Dr. Marzio Capra).

- Training course "*Hospital care for women following sexual violence*", "*Medico-legal aspects*", three sessions (3–10–17 December 2013), City of Health and Science, Turin.

- Training course "*Training for emergency department healthcare staff on initial care for victims of domestic violence*", "*Medico-legal aspects*", San Luigi Gonzaga University Hospital, Orbassano, four sessions (13 March, 10 April, 22 May, 5 June 2014).

- Training course in "*Forensic Sciences and Criminalistics: new analytical techniques and practical applications*", 21–22 November 2014, Camplus Living Bononia, Bologna: "*DNA*

*analysis and typing techniques*".

- Course "*The biologist as a technical consultant in judicial investigations: disciplines, application and cases*", 19–20 May 2016, Turin: "*Molecular biology applied to medico-legal cases*".

- Training course "*Hospital care for women following sexual violence and abuse during pregnancy*", "*Medico-legal aspects*", City of Health and Science, Turin, two sessions (10 and 24 May 2016).

- Training course "*Care for women following domestic violence*", "*Epidemiological and medico-legal aspects*", Asti Local Health Authority, 30 September 2016.

- Training course "*Gender-based violence. Analysis of the different forms of violence and the support network for victims*", "*Medico-legal aspects of gender-based violence. When and who should report it?*", San Luigi Gonzaga University Hospital, Orbassano, 7 October 2016.

- Training course "*Gender-based violence and violence against children. Analysis of the phenomenon and the various professional roles involved in case management*", "*Forensic aspects of gender-based violence. When and who should report it?*", San Luigi Gonzaga University Hospital in Orbassano, 18 May 2017.

- Springtime School "*Unaccompanied foreign minors: reception, issues, prospects*", 26–28 May 2017, Ispica (RG): "*The unaccompanied minor: medico-legal issues*".

- Training course "*Hospital care for women following sexual violence and/or abuse during pregnancy*", "*Medico-legal aspects*", City of Health and Science, Turin, two sessions (8 and 13 June 2017).

- District Commission for the Training of Honorary Magistrates "*Unaccompanied and inadequately accompanied migrant minors*", 8 November 2017, Court of Appeal of Turin: "*The unaccompanied or inadequately accompanied foreign minor: medico-legal issues*".

- Training course "*Domestic and Sexual Violence. Analysis of the Phenomenon and Professional Roles in Case Management*", "*Medico-legal Aspects*", AO Ordine Mauriziano, Turin, 13 November 2017.

- Training course "Crime Scene and Violence. A Multidisciplinary Approach: Roles and Responsibilities", "*The Role of the Forensic Pathologist: the on-site inspection, the confirmation of death. Medico-legal notes*", Fossano, 27 October 2018.

- Training course "*Gender-based violence and violence against children. Analysis of the phenomenon and the various professional roles involved in case management*", "*Medico-legal aspects of gender-based violence. When and who should report it?*", San Luigi Gonzaga University Hospital, Orbassano, 12 November 2018.

- Training course "*Domestic and Sexual Violence. Analysis of the Phenomenon and Professional Roles in Case Management*", "*Medico-legal Aspects*", AO Ordine Mauriziano, Turin, six sessions (20 February, 13 March, 15 May, 9 October, 20 November 2018 and 22 January 2019).

- Training course for healthcare and social care professionals in hospitals. "*Supporting and accompanying women who are victims of violence*", "*Recognising domestic and sexual violence: physical and psychological signs. Abuse during pregnancy. Medico-legal aspects*", ASL Alessandria (Project promoted in collaboration with the Piedmont Region and the Department for Equal Opportunities), three editions (1st edition 19 and 24 October 2018 – 2nd edition 12 and 19 November 2018 – 3rd edition 20 and 25 February 2019).

- Regional training event "Look up...", "Medical-legal aspects", regional basic awareness course on gender-based violence, A.O.U. Città della Salute e della Scienza, Turin, Sant'Anna Campus, 26 February 2019 (accredited by ECM Piemonte, code no. 32480 for 6 credits).

- Regional training event "*Look up...*", "*Medico-legal aspects*", regional basic awareness course on gender-based violence, A.O.U. Maggiore della Carità, Novara, 3 April 2019 (accredited by ECM Piedmont for 7 credits).

- 5th Two-year specialist training course for criminal lawyers, National School of Specialist Training for Criminal Lawyers, "*Scientific evidence: the perspective of the medical examiner and the forensic geneticist*", Rome, 6 July 2019.

- Training event "*Scientific evidence, controversial issues and procedural dynamics*", Padua Criminal Bar Association "Francesco De Castello", "Franco Antonelli" Regional School, Padua, 10 October 2019.

- Training event "*Sexual and gender-based violence*", "*Medico-legal aspects*", Borgomanero Hospital, 15 November 2019 (accredited by ECM Piedmont).

- Information session for operators of the 118 Regional Emergency Service, "*Gender-based violence: Clinical, intervention and medico-legal aspects*", Piedmont 118 operational headquarters in Grugliasco, 1st session 21 November 2019 and 2nd session 5 December

2019.

- Regional training event "*Look Up*...", "*Medico-legal aspects*", regional basic awareness course on gender-based violence, Mauriziano Umberto I Hospital, 29 January 2020 (accredited by ECM Piemonte).

- Regional training event "*Look up*...", "*Medico-legal aspects*", regional basic awareness course on gender-based violence, VCO Local Health Authority – Omegna, 1st edition 28 February 2020, 2nd edition 20 March 2020, 3rd edition 3 April 2020, 4th edition 29 May 2020 (accredited by ECM Piemonte). Please note that these events have been postponed to a date to be confirmed due to the COVID-19 emergency.

- Training event with ECM AOU Maggiore della Carità in Novara, "*Presentation of the Company Procedure: gender-based violence*", 5 sessions (30 September 2020, 6 October 2020, 12 October 2020, 20 October 2020 and 27 October 2020).

- Training event with ECM at AOU Maggiore della Carità in Novara, "*Presentation of the Company Procedure: sexual violence*", 6 sessions (1 October 2020, 8 October 2020, 14 October 2020, 22 October 2020, 29 October 2020, 20 November 2020).

- Study Seminar "*Medicine and Law in Dialogue*", "*Legal Medicine in the Protection of Human Rights*", Padua, 18 December 2020 (event accredited for healthcare professionals and lawyers).

- Training event organised by the Pordenone Criminal Bar Association, "*The presentation of evidence in court. Cross-examination… when and why. Scientific evidence: how to approach it so as not to fear it. Practical cases*", "*Scientific evidence from the perspective of the forensic pathologist*", 12 January 2021, via Zoom.

- Training event organised by the Aiga Tommaso Bucciarelli Foundation, "*Advanced professional training course 'The protection of victims of gender-based violence*'", "*The psychological, psychiatric and pathological effects of violence suffered and witnessed*", 9 April 2021, via Zoom.

- 6th Two-year Specialist Training Course for Criminal Lawyers, National School of Specialist Training for Criminal Lawyers, "*Scientific evidence from the perspective of the forensic pathologist*", 22 October 2021, via Zoom.

- Training event with ECM at the Maggiore della Carità University Hospital in Novara, "*Presentation of the Institutional Procedure: sexual violence*", 5 sessions (18 November 2021, 19 November 2021, 24 November 2021, 26 November 2021, 29 November 2021, 3 December 2021, 15 December 2021, 16 December 2021, 21 December 2021 and 22 December 2021).

- Regional training event "*Look Up*...", "*Medico-legal aspects*", regional basic awareness course on gender-based violence, VCO Local Health Authority – Omegna, 1st session 28 January 2022, 2nd session 18 February 2022, 3rd session 18 March 2022, 4th edition 8 April 2022, 5th edition 6 May 2022, 6th edition 26 September 2022, 7th edition 21 October 2022, 8th edition 18 November 2022, 9th edition 16 December 2022 (accredited by ECM Piemonte).

- Regional training event "*Look Up*…", "*Medico-Legal Aspects*", advanced regional course on gender-based violence, Piedmont Region, Department of Health, 1st edition 11 October 2022, 2nd edition 15 November 2022, 3rd edition 13 December 2022 (accredited by ECM Piedmont).

- Regional training event "*Look up* …", "*Medico-legal aspects*", regional basic awareness course on gender-based violence, VCO Local Health Authority – Omegna, 1st edition 19 May 2023, 2nd edition 26 June 2023, 3rd edition 25 September 2023, 4th edition 20 October 2023, 5th edition 11 December 2023, (accredited by ECM Piedmont).

- Training event at the Ordine Mauriziano Hospital Trust in Turin: "*Women and children as victims of violence – Approaches and care strategies*", 1st edition 20 October 2023, 2nd edition 10 November 2023 (accredited by ECM Piedmont).

- Training event at the Ordine Mauriziano Hospital Trust in Turin: "*Women and children victims of violence – Approaches and care strategies*", 1st edition 28 February 2024, 2nd edition 12 March 2024 (accredited by ECM Piemonte).

- Webinar "*The culture of violence: from IPV to the trauma of child trafficking*", 3 May 2024.

- Seminar "*Supporting victims of violence in care settings*", Bachelor's Degree in Nursing Sciences – San Luigi campus, Orbassano – University of Turin, 23 May 2024.

- Regional training event "*Look up* …", "*Medico-legal aspects*", advanced regional course on gender-based violence, Sant'Anna Hospital, Turin, 1st edition 24 May 2024, 2nd edition 27 September 2024, 3rd edition 25 October 2024, 22 November 2024.

- Regional training event "*Look Up*…", "*Medico-legal aspects*", regional basic awareness course on gender-based violence, ASLTO5, 28 May 2024, 15 October 2024.

- ASL CN1 in-house training event, "*Working together against gender-based violence. The*

*Cartabia Reform and the Codice Rosso*", "*Medico-legal aspects of the Cartabia Reform and Codice Rosso*", Bertoni Foundation Conference Room, Saluzzo, 30 September 2024.

- Regional training event "*Alza lo sguardo …*", "*Aspetti medico legali*", corso baseregionale di approfondimento sulla violenza di genere, Presidio Ospedaliero CTO di Torino, I edizione 24 maggio 2024, II edizione 27 settembre 2024, III edizione 25 ottobre 2024, 22 novembre 2024.

- Regional training event "*Alza lo sguardo …*", "*Aspetti medico legali*", corso avanzato regionale di approfondimento sulla violenza di genere, Presidio Ospedaliero Sant'Anna di Torino, I edizione 24 maggio 2024, II edizione 27 settembre 2024, III edizione 25 ottobre 2024, 22 novembre 2024.

- Regional training event "*Alza lo sguardo …*", "*Aspetti medico legali*", corso avanzato regionale di approfondimento sulla violenza di genere, Presidio Ospedaliero Sant'Anna di Torino, I edizione 11 aprile 2025, II edizione 26 settembre 2025, III edizione 24 ottobre 2025, 14 novembre 2025.

- Regional training event "*Violenza di genere: un approccio multidisciplinare*" Azienda Sanitaria Regionale Molise; I edizione 21 maggio 2025, II edizione 22 maggio 2025, III edizione 6 ottobre 2025, IV edizione 7 ottobre 2025, V edizione 8 ottobre 2025, VI edizione 9 ottobre 2025.

- Regional training event "*Alza lo sguardo ...*", "*Aspetti medico-legali*", corso base regionale di sensibilizzazione sulla violenza di genere, ASLTO5, I edizione 9 maggio 2025, II edizione 29 ottobre 2025.

- Regional training event "*Alza lo sguardo …*", "*Aspetti medico legali*", corso base regionale di approfondimento sulla violenza di genere, Presidio Ospedaliero CTO di Torino, 23 maggio 2025.

- Training event Ordine dei Giornalisti "*Diritto di cronaca e tutela delle persone fragili*", Confartigianato, Novara, 3 novembre 2025.

- Regional training event "*Alza lo sguardo …*", "*Aspetti medico legali*", corso base regionale di approfondimento sulla violenza di genere, Presidio Ospedaliero CTO di Torino, I edizione 28 gennaio 2026, II edizione 22 maggio 2026, III edizione 21 ottobre 2026.

- Regional training event "*Alza lo sguardo …*", "*Aspetti medico legali*", corso avanzato regionale di approfondimento sulla violenza di genere, Presidio Ospedaliero Sant'Anna di Torino, I edizione 20 febbraio 2026, II edizione 17 aprile 2026, III edizione 25 settembre 2026, 30 ottobre 2026.

- Seminar "*Diritto di cronaca e tutela delle persone fragili*", Università della Terza età, Novara, 9 marzo 2026.

-Seminar "*Accogliere le vittime di violenza nei contesti di cura*", Corso di laurea in Scienze Infermieristiche – sede San Luigi di Orbassano – Università di Torino, 19 febbraio 2026.

- Regional training event "*Alza lo sguardo ...*", "*Aspetti medico-legali*", corso base regionale di sensibilizzazione sulla violenza di genere, ASLTO5, 21 maggio 2026, 22 ottobre 2026.

- International Seminar "*Errors, biases, and false myths in forensic investigations: a multidisciplinary and international perspective*", "*Insights: advantages and limitations of forensic genetics",* Complesso didattico Morgagni - Università degli Studi di Firenze, 22 giugno 2026.

**Organised the following training events with ECM credits at the University of Turin:**

- Laboratory for the Study of Cadavers, courses on cadavers donated for study purposes:

- *"Cadaverlab on primary knee replacement and revision surgery*" (in collaboration with Prof. Roberto Rossi), 11 February 2013;

- "*Practical Course in Surgical Anatomy and Traumatology of the Shoulder and Elbow*" (in collaboration with Prof. Filippo Castoldi), 12 February 2013;

- "*Practical course in surgical anatomy and traumatology of the forearm, wrist and hand*" (in collaboration with Dr. Bruno Battiston), 19 March 2014;

- Department of Forensic Medicine, Postgraduate School in Legal Medicine, "*Medico-legal Meetings*": 6 March 2013, "*Professional liability: the legal expert's perspective*"; 17 April 2013, "*Professional liability: the forensic pathologist's perspective*"; 15 May 2013, "*Medico-legal consultancy on personal injury*"; 12 June 2013, "*Medico-legal consultancy on causes of death*"; 3 July 2013, "*Professional confidentiality*";

- Section of Legal Medicine, "*Child and adult maltreatment and sexual abuse: legal and medico-legal aspects*", first edition 4–5 May 2012, second edition 19 January and 2 February 2013;

- Section of Forensic Medicine, "*Canon Law: fundamentals and practical applications*" (in collaboration with Prof. Ilaria Zuanazzi), 3–4 October/7–8 November 2014.

**She organised (or helped to organise) the following training events with ECM credits in collaboration with the University of Eastern Piedmont:**

- "*Gender Medicine: the importance of difference*", 5 December 2023, Gaudenzio Cattaneo Auditorium, Perrone Complex, Novara, under the patronage of the Italian Society of Legal Medicine.

- "*Gender medicine: the importance of difference*", 4 December 2025, Crypt of St Andrew Vercelli, in collaboration with the Vercelli Provincial Node. Regional Network against Discrimination in Piedmont. At this event, she acted as moderator and speaker on "*Ethical and medico-legal aspects of gender medicine*".

- "*La medicina di genere per contrastare le discriminazioni nella prevenzione e nella cura: gli stili di vita, la nutrizione e le cardiopatie*", 12 giugno 2026, Aula Magna ASL VC, in collaboration with the Vercelli Provincial Node. Regional Network against Discrimination in Piedmont. At this event, she acted as moderator

**She also participated as a speaker at the following meetings/conferences/congresses:**

- Turin Police Headquarters, 4 December 2003: "*Forensic Genetics*";

- Conference "*Sampling in Autopsies*", Piedmontese Society of Forensic Medicine, Turin, 1 April 2004: "*Sampling for Immunogenetic Investigations*";

- Seminar on "*Forensic Genetics*" as part of the Legal Medicine course (Prof. Pierluigi Baima Bollone) – Law Degree Course, 26 April 2005;

- 78th Conference of the Italian Society of Experimental Biology (S.I.B.S.), Turin, 1–2 July 2005: "*Analysis of maternal and foetal DNA microsatellites in the human placenta: a preliminary study*";

- "*Brugada Syndrome in the Piedmont Region – Scientific update and discussion meeting on patient management*", 16 October 2009, San Luigi Gonzaga University Hospital – Orbassano: "*Legal Medicine Aspects*" (with Dr. Maurizio Cravello);

- "*Medicine and violence. Another step together to tackle gender-based violence*", 2nd Regional Conference, 15 November 2012, Auditorium Città Studi, Biella: "*Biological samples in sexual abuse: collection, storage and chain of custody*";

- Seminar at the PhD School in "*Molecular Genetics, Biotechnology and Experimental Medicine*" at the University of Brescia, 4 February 2016, Brescia, "*Identification and Forensic Genetic*s";

- 26th National Conference of Italian Forensic Geneticists – GeFI, Rimini, 8–10 June 2016: "*Mitochondrial DNA: mixture analysis*";

- IALM Intersocietal Symposium P5 Medicine&Justice, Venice, 21–24 June 2016: "*58 cases of sexual violence bearing forensic interest: congruence between the victim's report and the data from laboratory analyses*";

- Bioethics Events: "*The naked, violated and abused body: nudity in the mass media, pornography and the commodification of the self*", 25 November 2017, Modica (RG), "*No longer bodies: signs and expert reports on the naked body*";

- Bioethics Events: "*The naked, violated and abused body: nudity between torture, violence and intimacy*", 24 February 2018, Modica (RG), "*Migrant women and violated bodies*";

- 27th Ge.F.I. Congress, "*DNA and Technology: two tools for fighting crime*", 5–7 September 2018, Catanzaro: "*GeFI collaborative projects. Sexual violence*";

- 43rd SIMLA National Congress, "*Towards a new awareness and understanding in modern legal medicine and forensic science*", Verona, 20 September 2018: "*Abuse during pregnancy in the experience of the Turin Sexual Violence Relief Centre: clinical and medico-legal aspects*";

- Seminar "*From myth to trial: dialogue between disciplines. International Day for the Elimination of Violence against Women*", "*Violence against women: definitions and characteristics of a global phenomenon*", 26 November 2019, Novara, and 3 December, Alessandria – University of Eastern Piedmont;

- Training session, University of the Third Age, Novara, "*DNA: the gold standard?*", 28 November 2019;

- Conference in memory of Giovanni Gasti, on the 150th anniversary of his birth, "*From fingerprints to iris recognition: the human body as an object and means of investigation*", "*Personal identification: from the dawn of science to the DNA era*", Alessandria, 20 December 2019;

- NextGen Omics Series UK: Virtual "*12th Annual Next Generation Sequencing & Clinical Diagnostics Congress*", "*Microbiome analysis for forensic human identification: what do we*

*know so far?*", 4–6 November 2020;

- Refresher course for healthcare professionals on "*Gender-based violence*", Castelli Hospital, Verbania, 10 November 2021;

- Conference "*Sustainable Development and Gender Equality*", "*Gender-based violence: definitions and characteristics of a global phenomenon. The situation in Piedmont*", 8 March 2022, Rectorate, University of Eastern Piedmont, Vercelli.

- Invited oral presentation at the international conference "*Right to Health, Substandard and Disrespectful Care and Gynaecological and Obstetric Violence: a Multidisciplinary Perspective*" organised by the Department of Law at the University of Turin under the patronage of CIRSDe (Interdisciplinary Centre for Research and Studies on Women and Gender), "*The Clinical and Forensic Management of Sexually Abused Women (La prise en charge clinique et médico-légale des femmes victimes d'abus sexuels*)", Turin, 8 October 2024.

- 29th Conference of Italian Forensic Geneticists "*Forensic genetics at the service of vulnerable individuals: the experience of Italian laboratories*", 9–11 November 2023, Messina (invited oral presentation).

- Conference "*Stories of Women*", "*Gender-based violence: a women's issue only? The situation in Piedmont*", 27 November 2023, Crypt of St AnDr.ew, University of Eastern Piedmont, Vercelli (invited oral presentation).

- 7th National Congress of the Italian Academy of Forensic Sciences "*From the crime scene to the trial: Light and shadow on the role of technical-scientific evidence*", "*Unravelling the mysteries surrounding the preservation of extracted DNA. State of the art and future prospects*", 30 November – 2 December 2023, Naples (invited oral presentation).

- International conference "*Right to Health, Substandard and Disrespectful Care and Gynaecological and Obstetric Violence: a Multidisciplinary Perspective*" organised by the Department of Law at the University of Turin, "*The Clinical and Forensic Management of Sexually Abused Women (La prise en charge clinique et médico-légale des femmes victimes d'abus sexuels)*", 8 October 2024, (invited oral presentation).

- Panel moderator ("*Panel 1 – Types of violence and forms of protection*") with an oral presentation (*"Intimate Partner Violence": prevalence of the phenomenon in Piedmont*) at the 37th Congress of the Italian Society of Criminology, Turin, 17–19 October 2024.

- *Invited oral presentation ("*Violence against women: findings from a dataset collected in healthcare facilities in Piedmont (North-West Italy*)" at the 4th Forensics2024 Conference, Caparica (Lisbon, Portugal), 20–24 October 2024.*

**PUBLIC ENGAGEMENT**

- Gino S., Caenazzo L., *Violence against women. Definitions and characteristics of a global phenomenon*, Piccin Nuova Libraria S.p.A., Padua, 2019.

- Seminar "*DNA: the golden standard? The forensic geneticist's perspective*", I.I.S. Arimondi - Eula, Savigliano (CN), 1 February 2019.

- Organisation of "*Environment, microbiome and forensic sciences*", an initiative held as part of the "European Researchers' Night", 27 September 2019, DISIT, Alessandria, University of Eastern Piedmont.

- Seminar "*DNA and scientific evidence*", I.I.S. Arimondi-Eula, Savigliano (CN), 30 January 2020.

- Organisation of "*Violence against women during lockdown: new management strategies*", an initiative held as part of the "European Researchers' Night", 15 October 2020, live-streamed on the University's YouTube channel, University of Eastern Piedmont.

- Gino S., Caenazzo L., *Legal Medicine in the Protection of Human Rights*, Piccin Nuova Libraria S.p.A., Padua, 2021.

- Seminar "*The Use of DNA in Court*", I.I.S. Martinetti, Caluso, 15 January 2021.

- Interview for the programme "*Detective*" produced by Verve Media Company s.r.l. on "*The serial killer Maurizio Minghella*", 23 March 2021 (broadcast on Rai2).

- Collaboration on the organisation of the event for secondary school students and their parents "*Adolescents in lockdown*", 26 April and 3 May 2021, website (working group: Ivana Rabbone, Marta Ruspa, Lucia Corrado, Sarah Gino, Alessio Baricich, Diego Cotella, Lia Rimondini in collaboration with Dr. Maurizio Viri, Director of Child Neuropsychiatry, and Dr. Claudia Caucino, a psychologist at the same facility, and a psychotherapist who is a member of the EMDR. Italia association).

- Proposal and collaboration for the organisation of the event for secondary school students "*Adolescents between respect, equality and diversity*", 31 May 2021, website (working group:

Sarah Gino, Ivana Rabbone, Marta Ruspa, Lucia Corrado, Alessio Baricich, Diego Cotella, in collaboration with Dr. Paola Castagna, head of the SVS Centre in Turin, and Prof. Annamaria Fantauzzi, anthropologist).

- Collaboration on the organisation of "*Science Slam*", a scientific communication competition in which participants have just five minutes to win over the judges and audience by presenting the scientific project they are working on, explaining it clearly, accurately and in an engaging manner that can be understood by a general audience, 30 June 2021, CAAD, University of Eastern Piedmont (working group: Lucia Corrado, Marta Ruspa,Diego Cotella, Sarah Gino, Alessio Baricich, Ivana Rabbone).

- Interview for a documentary produced by Verve Media Company s.r.l. on "*The serial killer Maurizio Minghella"*, 7 September 2021 (broadcast on Discovery Nove).

- Collaboration on the creation of "*Science through your eyes*", an initiative held as part of the "European Researchers' Night" and consisting of a photography competition entitled: "*Seeing is believing. Science through your eyes*", 15 October 2021, University of Eastern Piedmont (working group: Cotella Diego, Ruspa Marta, Corrado Lucia, Baricich Alessio, Gino Sarah, Rabbone Ivana, Rimondini Lia, Buonacasa AnDr.ea, Serra Roberto, Corazzari Marco, Sambarino Giorgio, D'Amico Leonardo, Martignone Francesca).

- Collaboration on the organisation of "*Scientists Without Borders*", an initiative held as part of the "European Researchers' Night" and consisting of a short activity/game for primary and secondary school pupils, organised and led by international PhD students from the Department of Health Sciences, held at DISIT in Alessandria, 15 October 2021 (working group: Diego Cotella, Marta Ruspa, Lucia Corrado, Alessio Baricich, Sarah Gino, Ivana Rabbone, Lia Rimondini, Hugo Abreu De Sousa, Ilijana Kovrlija, Ksenia Menshikh, Elzbieta Panczyszyn, Sara Centonze).

- Interview for a documentary produced by Verve Media Company s.r.l. on "*The Erba Massacre*", 24 October 2021 (broadcast on Discovery 9).

- Participation as an external partner in the project "*PAUSE (Prevention of Assault Under Scientific Evidence): an interdisciplinary approach to combating interpersonal violence*", proposed by the Department of Computer Science at the University of Turin; the project was funded through a call for proposals for public engagement by the University of Turin in 2021.

- Seminar "*From the laboratory to the courtroom: DNA as the gold standard of evidence?*", I.I.S. Martinetti, Caluso, 17 February 2022.

- Interview for the newspaper "*With DNA analysis today, we can trace the murderer back to just three cells*", 21 March 2023.

- Public awareness seminar "*Gender-based violence: a women's issue only? The situation in Piedmont*", Rotary San Gaudenzio, Novara, 6 June 2023.

- Public information article "*Does old age protect against violence?*", UPOAging website, 31 October 2023.

- Public awareness meeting "*Violence against the elderly*", 13 November 2023, Parish of Cambiano (TO).

- Reflection meeting to mark Remembrance Day "*Remembrance Day: women in the spotlight*", Aula Magna, AOU Maggiore della Carità, 30 January 2024 (organising committee).

- Seminar "*Gender-based violence: a women's issue only? The situation in Piedmon*t", I.I.S. Martinetti, Caluso, 8 February 2024.

- Seminar "*Forensic genetics and vulnerability*", I.I.S. Martinetti, Caluso, 8 February 2024.

- Reflection meeting to mark International Women's Day "*Primroses and chocolate, an enchanted pairing. Women first, not prima donnas*", Aula Magna, AOU Maggiore della Carità, Novara, in collaboration with the Department of Health Sciences, University of Eastern Piedmont, 13 March 2024 (organising committee).

- Seminar "*Gender-based violence: a women's issue only? The situation in Piedmont*", I.I.S. Martinetti, Caluso, 4 December 2024.

- Seminar "*From the laboratory to the courtroom: DNA as the gold standard of evidence?*", I.I.S. Martinetti, Caluso, 7 January 2025.

- Seminar: "*Gender-based violence: a women's issue only? The situation in Piedmont*", Liceo Classico G.F. Porporato, Pinerolo, 21 January 2025.

- Seminar "*From the laboratory to the courtroom: DNA as the gold standard of evidence*?", Liceo Scientifico Alessandro Antonelli, Novara, 10 March 2025 (2 seminars on the same day).

- Seminar "*From the laboratory to the courtroom: DNA as the gold standard of evidence?*", I.S.S. A. Avogadro, Vercelli, 4 December 2025.

- Seminar "*From the laboratory to the courtroom: DNA as the gold standard of evidence?*", I.I.S. Martinetti, Caluso, 20 January 2026.

## EDITORIAL ACTIVITY

- **Editorial and guest editor roles**

**• Dates (from – to)** **From February 2025 to present**

**• Name and address of employer** Frontiers in Microbiology

**• Type of company or sector**

**• Type of employment** Guest Associate Editor

**• Main duties and responsabilities** Section: Microbial Symbioses - Research Topic: Dynamics of the Human Skin Microbiota

| | |
|---|---|
| **• Dates (from – to)** | **From March 2023 to present** |
| **• Name and address of employer** | Frontiers in Microbiology |
| **• Type of company or sector** | |
| **• Type of employment** | Guest Associate Editor |
| **• Main duties and responsabilities** | Section: Ancient DNA and Forensic Microbiology - Research Topic: Microbial Signatures in Forensics: Bridging Science and Justice |
| **• Dates (from – to)** | **From September 2022 to present** |
| **• Name and address of employer** | Frontiers in Sociology |
| **• Type of company or sector** | |
| **• Type of employment** | Review Editor |
| **• Main duties and responsabilities** | Section: Gender, Sex and Sexualities |
| **• Dates (from – to)** | **From November 2022 to December 2024** |
| **• Name and address of employer** | Futire (MDPI) |
| **• Type of company or sector** | |
| **• Type of employment** | Guest Editor |
| **• Main duties and responsabilities** | Special Issue: Sexual and Domestic Violence and Adolescent Health |
| **• Dates (from – to)** | **From March 2021 to December 2024** |
| **• Name and address of employer** | International Journal of Environmental Research and Public Health (MDPI) |
| **• Type of company or sector** | |
| **• Type of employment** | Guest Editor |
| **• Main duties and responsabilities** | Special Issue: Sexual and Domestic Violence and Adolescent Health |
| **• Dates (from – to)** | **Since the beginning of her academic activity** |
| **• Name and address of employer** | |
| **• Type of company or sector** | |
| **• Type of employment** | |
| **• Main duties and responsabilities** | Ad hoc reviewer for the most prestigious international and national journals in the field of Forensic and Legal Medicine. |
| **• Scientific Committee and Peer Review Activities** | |
| **• Dates (from – to)** | **From 2010 to 2018** |
| **• Name and address of employer** | "Quaderni di Donne & Ricerca" (ISSN-registered journal, published by CIRSDE – University of Turin) |
| **• Type of company or sector** | |
| **• Type of employment** | Scientific Committee Member & Peer Reviewer |
| **• Main duties and responsabilities** | |
